

Getting the Information You Need

The I-15 CORE team has a program in place to keep residents, commuters and businesses updated about the project. We'll be getting the word out on our Web site, Facebook, Twitter, on the radio, in the newspaper, and through text messages and emails, and of course you can call us anytime at 1-888-i15core.

Visit the I-15 CORE Website and then stay updated by signing up for:

- Regular email updates
- Text message alerts
- Facebook

Get Involved, Stay Informed

Public Involvement Coordinators

Public involvement coordinators will work one-on-one with the businesses and residents most impacted by the project to address concerns, provide information and even facilitate adjustments of construction plans when possible.

Who is your Public Involvement Coordinator?

Lehi to Lindon Area

Amalia Deslis
(801) 824-5402
adeslis@utah.gov

Orem Area

Dave Asay
(801) 824-5405
daveasay@utah.gov

Provo to Spanish Fork Area

Leah Jaramillo
(801) 824-5401
ljaramillo@utah.gov

TravelWise

Businesses, commuters, students and residents will be encouraged to participate in the TravelWise program and adjust their travel times, carpool, telecommute, and utilize public transportation to alleviate construction impacts on traffic. Call 1-888-i15core (1-888-415-2673) to learn more or get involved.

TRAVELWise
Good for you. Good for Utah.

I-15 CORE

The Utah Department of Transportation (UDOT) is getting started on one of the largest roadway projects in the state's history - widening and rebuilding 24 miles of I-15 in Utah County. I-15 CORE is an important investment to restore aging infrastructure, address long-term transportation needs and improve the movement of goods and services throughout the state.

TRAVEL DELAYS AND SCHEDULE

An aggressive construction timeline has been set to minimize inconvenience to the public; it is anticipated that construction will start in spring 2010 and be completed as early as December 2012. Drivers should anticipate lane restrictions and significant traffic delays during certain times of construction so that this ambitious schedule can be met.

PROCESS

I-15 CORE is a design-build project, which means that the design process is ongoing during the initial stages of construction. As a part of this design-build process, the schedule for specific aspects of the project and working in particular areas is still being established.

I-15 CORE Quick Facts

- Project length: 24 miles
- Two new lanes in both directions from Lehi Main Street to Spanish Fork
- Express Lane extended from University Parkway in Orem to Spanish Fork
- 10 freeway interchanges rebuilt or improved
- 55 bridges replaced or restored
- Meets or exceeds travel demands through the year 2030
- Durable 40-year concrete pavement

I-15 CORE Timeline

January 2010
Design and Pre-construction Begins

June 2012
Scheduled Phase 1 Completion
(Lehi Main St to Pleasant Grove)

Spring 2010
Construction Begins

December 2012
Scheduled Phase 2 Completion
(Pleasant Grove to Spanish Fork)
